(مرفق ١) المقترحات التي تم إرسالها للتحكيم الدولي - الدفعة الثانية عشر

م	المشروع	الكود
1	Tumour-associated antigens as diagnostic/prognostic markers and as therapeutic targets in Hematological malignancies	12-MED2978-54
2	Development of efficient Lithium-Ion Battery using Nano-Composite Gel Polymer Electrolyte	12-ENE2979-54
3	Targeting Cancer Metabolism: A Fragment Based Approach Towards Bi-Functional Inhibitors of the Key Glycolytic Enzyme hLDH-A	12-MED2980-54
4	Realisation of Application-specific Photonic Technologies for Secure and Efficient Image-Video Processing Applications on Quantum Computers	12-ELE2983-54
5	SMaRTIS: Profile-Tracking based Identification System using Encoded Multimodal Biometric Data	12-INF2984-54
6	Synthesis of multifunctional small molecule glycolmimetic nanoparticles for drug delivery and imaging	12-NAN2986-54
7	Development and synthesis of novel nanomaterials to use in water purification and water disinfection	12-NAN3176-54
8	Wind and Solar PV Energy Resources Assessment for Salman Bin Abdul Aziz New Campus at Wadi Al Dawasir	12-ENE3177-54
9	Experimental validation of a numerical trunk stability model	12-MED3178-54
10	Six Stroke Internal Combustion Engine Optimization	12-ENE3179-54
